

## END SEAL, HEAT SHRINK

These end seal kits are designed for the termination of nVent RAYCHEM industrial heating cables. The end seal kit employs easy to use heat-shrinkable tubing with an adhesive, that when heated forms a semi-flexible moisture proof encapsulation. Due to the low profile design the finished termination can be installed directly on the pipe. One end seal kit is required for each termination.

### FEATURES & BENEFITS

Simple and fast to install

Small geometry, for installation under the insulation

Reliable during long life, 10 year product warranty available, maintenance free

### SPECIFICATIONS

**Model** Heating Cable End Piece

**Connection Type** Heat Shrinking Technique
